Dear Lisa

Re: Part D Review – Proposed new rules

Thank you for the opportunity to comment on the Electricity Commission's consultation paper *Part D Review – Proposed new rules*.

Transpower New Zealand Limited agrees with and supports the submission provided by Energy Market Services Limited.

We note that the Commission has granted Transpower, in its capacity as System Operator, an exemption from compliance with the requirement in rule 6.1.2 of Part J for the System Operator to notify the reconciliation manager of the trading periods in a consumption period during which points of connection to the grid were supplied from an alternative point of connection. We understand that, while this exemption is in force, it takes precedence over the wording of rule 6.2.1 as set out in the proposed Part J rules appended to the consultation paper.

Yours sincerely

Richard Fletcher
